

REAL FREEDOM

Not the illusion we walk in the midst of everyday of our lives, being poisoned by industry, enslaved by debt and controlled by the self preserving mechanisms of the established power elite. Humanity needs to come together, and collectively recognize its common interests for well being, and work in harmony by sharing its ideas and resources through education, high level innovation and creativity, to achieve a sustainable society, where no one is left behind.

What we propose is a Resource-Based Economy.

A Resource-Based Economy is a system in which all goods and services are available without the use of money, credits, barter or any other system of debt or servitude. All resources become the common heritage of all of the inhabitants, not just a select few. The premise upon which this system is based is that the Earth is abundant with plentiful resources; our practice of rationing resources through monetary methods is irrelevant and counter productive to our survival. Let us evolve passed the strife!
